At Saint Leo University every effort is made to block unwanted SPAM. There are those times, however, when an email may be blocked and you want to retrieve it. Below are directions on how to use the various SPAM Tools that are available at Saint Leo University.

**Email Spam Digest**

The email spam digest is delivered to your Inbox whenever you have SPAM. From this digest you can:
- View your spam based on sender and subject for that day’s SPAM.
- Release false-positive messages that were incorrectly classified as SPAM emails.
- By clicking release you can access the more robust Spam Console.

**Spam Digest**

The emails listed below have been placed by the Saint Leo University Spam Filter in your Spam - Confirmed, Spam - Suspected Folder. They will be deleted after 7 days.

**Manage your Spam - Confirmed, Spam - Suspected Folder.**

<table>

The Saint Leo University Spam Console is accessible at:
http://sluspam1.saintleo.edu/spamconsole

- Login using your SLU Portal Username and Password.
- Track your spam history on the HOME screen.
- View and release SPAM by classification on the BLOCKED MAIL screen.
- Create your own Blocked and Safe Senders lists on the MANAGE SENDERS screen.
- Allow another user to manage your SPAM for you. On the USER SETTING screen you can Delegate User(s) to manage your SPAM for you. Great feature for managers.
- If you have more than email address that you use in the organization you can include that email as well into your spam console view.
