Florida Hospital-Tampa is seeking to provide an increasing number of internships to Saint Leo University students. At present, there are opportunities for three interns during this spring 2014 semester.

**Administrative-Leadership Development Internship**

(2) Interns

In order to pursue their mission, Florida Hospital Tampa is seeking two administrative interns who are interested in the cultivation of organizational culture and the development of ethical decision-making and leadership throughout the Hospital. The selected students are expected to participate in program development and delivery through on-boarding and continuous professional development programs. Students with a desire to enhance their facilitation, best-practice research, and presentation skills are especially encouraged to express their interest.

Florida Hospital has expressed their flexibility in fitting this valuable experience around the selected student’s academic and, to an extent, their co-curricular schedule. The scope of the internships allows students to complete a 20 hour per week schedule.

**To Apply**

Before applying, please discuss this opportunity with your faculty advisor. After determining the suitability to your program of study, please submit a cover letter and an updated version of your resume to robert.liddell@saintleo.edu for consolidation of materials on behalf of the internship site host.

**About Florida Hospital**

Florida Hospital is one of the country’s largest not-for-profit health care providers with 22 campuses serving communities throughout Florida. Being a not for profit hospital means we are here for something much more important: you. For more than 100 years, we have been profoundly committed to those who seek our care. We’ve become known the world over for the expert, compassionate, individualized attention given to the millions who have already passed through our doors, and the million plus patients who visit us each year. As we’ve adapted with the changing times, our mission has remained a constant—to extend the healing ministry of Christ. Our heritage of whole person health—achieving wellness of the mind, body and spirit for our patients—is of paramount importance to each member of our exceptionally talented clinical staff.
