On Campus Recruitment
Employers who wish to interview students/graduates for full-time or internship positions, may request an on campus recruitment date for which we will create a schedule for individual interviews and provide a room to conduct them.

On-campus recruitment is available from late September through the first week in December and from late January through the end of April. There is no fee for this service.

Employer Information Sessions
Employers may wish to present a general overview of their company and opportunities through an Information Session. Traditionally, information sessions are held from 11:30 a.m. until 1:30 p.m., Monday through Thursday. We have found that employer branding opportunities are more successful when coordinated with the academic calendar. Again, we intend to reward your decision to recruit at Saint Leo with responsive employer services. To that end, please contact our staff to create a meaningful experience with our students, recent graduates, and alumni.

Student attendance varies for these events and is not guaranteed. Reservations are requested at least two weeks in advance and are available from late September through the first week in December and from late January through the end of April. There is no fee for this service.

Matt Battista, Assistant Director for Career Planning, would love to assist your efforts to recruit here at Saint Leo. He can be reached at matthew.battista@saintleo.edu or by telephone at (352) 588-8231.

Advice targeted to creating a stronger employer brand is offered here by Rob Kessler, Assistant Vice President of Employee Communications and Employer Brand for Enterprise Holdings. This article is provided courtesy of the National Association of Colleges and Employers.
